MONTHLY NEWSLETTER OF HOLY HEARTS EDUCATIONAL ACADEMY, RAIPUR

संस्थापक की कलम से

समय पर किया गया कार्य जिस प्रकार से मनुष्य को अनुशासन में बांधे रखता है और कार्य के बोझ का एहसास भी नहीं होने देता है, ठीक उसी प्रकार से होली हार्ट्स विद्यालय के द्वारा हर कार्यक्रम की एक सारणी तैयार की जाती है और उसी रूपरेखा के अनुसार कार्य को निर्धारित किया जाता है। बच्चों से भी यही उम्मीद की जाती है कि वह समय सारणी तैयार करके अपने हर कार्य को समय के अनुसार करें।

बड़े ही हर्ष की बात है कि आज इस कोरोनावायरस के संक्रमण के बीच भी अपनी सुरक्षा का विशेष ख्याल रखते हुए अभिभावकों द्वारा अपने बच्चों के भविष्य को प्राथमिकता देते हुए विद्यालय के नियमों का पालन किया जा रहा है। प्रतिज्ञा ई मैगजीन जिसके माध्यम से मेरे यह विचार अभिभावक गण तक पहुंच रहे हैं इस मैगजीन का उद्देश्य यही है कि हमें बच्चों की प्रतिभाओं को मिलकर प्रोत्साहित करना है।

हर कार्य समय पर करें इन्हीं शुभकामनाओं के साथ.....

सुरेंद्र प्रताप सिंह

From Academic Director's Desk

Dear Parents/ Students,

I congratulate all our students and teachers of class X and class XII for wonderful results.

For Academic Excellence, I have few suggestions....

1. Please make sure that your child is regular in classes.
2. Students should fix the goal to achieve the high percentage and then required to plan the day and manage their time.
3. They should develop reading habit. They should revise the chapter which is taught in a day and they should see that without revising they don't sleep.
4. Examination preparation should be started right from the beginning, not when the exam is near. All tests and examinations are important. Students should appear in all tests and examinations.

"The beautiful think about learning is that no one can take it away from you. "

I wish you all the Best.

From Principal's Desk

An all-round personality development is our vision, and our primary goal. Our students are encouraged to do the best not in comparison of anyone but to be the best version of themselves. While mapping their own graph in academics, children peak at different times but there are other areas they can pursue to develop holistically.

To achieve this, our academic E- magazine Pratigya comprises of, student activities including science activities, painting, poster making, doctor's day celebration, no-plastic day, grow green, kargil diwas, Founders Day etc.

Our students are encouraged to strive for excellence in whatever they do and we wish them to give their best for more challenges ahead.

Mrs. Neepa Chauhan

From Director's Desk

Dear Students,

It gives me immense pleasure to communicate with you through the medium of this newsletter. I hope that you and your family are doing well and are safe and sound. I would like to share a few things about the importance of finding our passion in life. Many people in the world are constantly suffering from a variety of stresses in their lives.

Many books have been written about managing stress and most of these have emphasized upon the need for finding something that one loves to do.

It is imperative that we find our passion. It can be a hobby or it can be our full time profession, but as long as we do things that make us happy and joyful, we will always be able to live life to the fullest. In the words of Steve Jobs, "Keep searching, until you find your calling".

Siddharth Prakash Singh

From The Head Mistress' Desk

Dear Parent,
Warm greetings !

During this pandemic the children have had their own share of suffering. We can very well realize the stress they are undergoing. We must try to ease them. We should understand them. We parents and teachers need to show immense patience towards them. We need to give enough time and space to the children so that they can cope with this situation properly. As we all know we are embarking towards our offline classes, we should not expect that soon they will start following normal norms as they were doing year ago. We need to handle them with ease. Over expectation can adversely affect their individuality. Do not pressurize them. In the upcoming year joint effort of parents and teachers are required and we need to work together.

We need to bring children on the normal track without adding pressure of discipline, syllabus, learning, exams and participation in all the activities. Instead we will plan our curriculum in such a way that there will be more outdoor activities. Stress will be laid on revision of the old syllabus, recapitulation of the basics and oral drilling. We will try to synchronize in a very balanced way so that they don't feel stressed and can become Happy Learners with no extra burden.

We seek support from all the parents to bring back the children to their normal routine only they need is hand of time.

Ms. Shalini Agrawal

From Vice Principal's Desk

COMPETITION:

Competition is something that inspires us to learn because all of us want to win and we try hard. We progress when we compete and it is a good sign.

Competition should always be taken in a good sense because sometimes people take it wrongly which can make them suffer. Competing in a good way will help us to progress; whereas if we compete to satisfy our envy, then it is not good for us.

Why is competition important part of our life?

- Develops Focus
- Helps us to Progress
- It Inspires
- It brings out creativity in us

What strategies can be opted to win a competition?

- Analyze your ability and make correct strategy
- Don't take it as a competition
- Have proper study material

There are multiple benefits of competition and healthy competition will not only bring success to us but will also help us to progress and learn. Life is all about learning and competitions are the speed breakers that interrupt us to analyze how much we have learned. Those who know how to handle these speed breakers will never get affected by them and will always succeed.

Mrs. Radhika Atre

From The Academic Co-ordinator's Desk

Dear students,

You may have heard from many elders that school life is the best part of our lives. However, many students may not/do not feel so. The primary and possible reason may be that they experience pressure from teachers, parents, peers, etc. This is what they feel, the truth is they themselves create pressure by not being planned and organized. With proper planning and time management during school life, not only can you enjoy your school life but it will be smooth sailing throughout.

In order to do so, you need to make a few changes in your daily routine.

Firstly, be regular in attending school and doing your homework. It may seem pointless to you right now, but it is the first step to success.

Secondly, pay attention to what is being taught in class as this is the easiest way to understand your subject content.

Thirdly, actively participate in your class activities as this keeps one's thought process activated. Do not collect your doubts for anytime later, keep clarifying them.

Last but not the least, never hesitate to look for support from your teachers. Not only are your teachers forever happy to help but that's what energizes them. A teacher's true success depends on the achievement of their students.

Mrs. Poonam Shetty

**“SHARING IS CARING - SHARING IS FUN,
WE CAN ALL SHARE TOGETHER, BE KIND TO
EVERYONE”**

**BY INVITATION
GUEST WRITER OF
THIS MONTH**

You all learnt and sang the above lines in your elementary classes and enjoyed sharing your belongings to your peer ones selflessly and without any second thoughts, be it your pencil, lunchbox, homework etc. The relationship which grew out of these small acts and gestures of childhood later culminated into strong bonds of friendship, fellowship and feeling of togetherness and get expressed into nationhood and universal brotherhood. During this time of Covid pandemic we all experienced and experimented at all our levels this childhood learning or “sharing and caring ”and thus are successful up till now to come out of this pandemic nicely .

During lockdown, when life came to standstill we all stood by each other by helping in any way we could, be it by providing items of daily needs, medicines, groceries or by helping in monetary terms or by providing food, clothes, shelter, transportation and different kinds of services like donating blood, taking care of the needy ones. The pandemic created opportunities to bring forth the core value of humanity unique to mankind only learnt during initial schooling days and practiced throughout life i.e. Sharing and Caring.

BY INVITATION ALMNUS OF THIS MONTH

“Life has a funny way of working out things just when you start to believe it never will.” So to start, let me introduce myself; I am Siddharth Lotia, a final year Undergraduate Student at IIIT Naya Raipur. I joined Holy Hearts at Class 4th in 2009 and continued till Class 10th; later, I joined some dummy schools to prepare for JEE (Engineering Entrance Exam). So, in a nutshell, my school life was till my time with School. I was a studious student, got good marks and also I participated in Sports Activities in School. I got academic awards, prizes in Quiz Competition, Science Exhibition to Prizes in Rangoli Competition and sports events. This was the diversity of events that I was active during in School.

The combination of My Interests In Physics and Mathematics promoted me to Take P.C.M in Class 11th and prepare for IITJEE Examination. I later got to a decent college, i.e., IIIT Naya Raipur, and currently, I am doing an Internship at a Canadian Research University. I got selected through a prestigious student program and got recognition from Education Ministry, Govt of India.

The small small moments, still just bring a smile to my face when I think of them, one of that is when **Singh Sir** used to give a speech at the assembly, and he always used to start with *“Mere Pyare Bacho”* those moments, the zeal and great enthusiasm with he spoke every time was so tremendous and motivated me every time to achieve something great and most importantly to be a good person first. I really want to take this opportunity to thank all of my teachers. Also, I want to thank Ashutosh sir for allowing me to share my story in the form of this write-up and connect with my teachers and the current students.

Take care everyone!
Siddharth Lotia

BY INVITATION अभिभावक की कलम से

आज के दौर में बच्चों की अच्छी शिक्षा एक ऐसा विषय है जो कि अभिभावकों के लिए एक बहुत कठिनाई भरा निर्णय होता है। आज ऐसे अनेकों स्कूल हैं जो प्रख्यात हैं परंतु जैसी शिक्षा मिलनी चाहिए वैसा स्तर वहां नहीं है। शिक्षा का अर्थ केवल किताबों एवं पाठ्यक्रम का अध्ययन ही नहीं होता है बल्कि इसके साथ - साथ संस्कारों और अनुशासन का सीखना भी होता है। यह कहा भी गया है कि “शिक्षित एवं ज्ञानी व्यक्ति का हर स्थान पर सम्मान होता है”। हम जिस स्कूल से संबंधित हैं, ‘होली हार्ट्स स्कूल’, वहां पढ़ाई के साथ विद्यार्थियों को पूर्ण रूप से शिक्षित किया जाता है। यह हमारे अपने स्वयं के अनुभव की बात है कि शिक्षा का स्तर, शिक्षण तथा पढ़ाई तो बहुत अच्छी होती ही है, साथ में अनुशासन एवं संस्कार भी सिखाए जाते हैं जो कि विद्यार्थियों के लिए जीवन भर की पूंजी बन जाते हैं। कोई भी विद्यालय स्कूल बनता है और जाना जाता है वहां पढ़ाने वाले शिक्षकों से, और एक अभिभावक के तौर पर हमें इस बात की अत्यंत संतुष्टि एवं हर्ष है कि होली हार्ट्स के शिक्षक के सानिध्य में सभी विद्यार्थी ना केवल अच्छी शिक्षा प्राप्त करेंगे अपितु भविष्य में एक अच्छे इंसान और अच्छे नागरिक भी बनेंगे। इस स्कूल के डायरेक्टर श्री एस पी सिंह सर भी एक अभिभावक के रूप में सब का मार्गदर्शन करते हैं जो कि बहुत ही हर्ष की बात है। विगत लगभग डेढ़ वर्षों से कोरोना के कठिन समय में भी सारे शिक्षक एवं स्कूल के सभी स्टाफ निरंतर रूप से विद्यार्थियों के शिक्षण और शिक्षा कार्य में लगे हुए हैं तथा विद्यार्थियों को हर तरह की मदद भी कर रहे हैं, और अपनी जिम्मेदारियों का पूर्ण रूप से निर्वाहन करते आ रहे हैं।

IMPROVE YOUR ENGLISH

Language is basically a medium to convey our thoughts, ideas, feelings, opinions etc. It helps human beings to communicate. There are roughly 6500 languages spoken in the world today. Certain signs, symbols, gestures and of course smile are common and universal in nature that can be understood across the globe. English is considered as a global language. People often talk about English as lingua franca.

Four skills required to learn any language are listening, speaking, reading and writing. For learning good English and be able to use it proficiently, we need to work on sharpening these four skills.

Listening and reading are receptive: Input, i.e. the exposure you have to the language. Speaking and writing are productive: output, i.e. the action of producing the language. To achieve these four basic skills, you need to surround yourself with English: make English part of your life at home, school, during your free time. Expose yourself to the language as much as possible. Practice makes perfect, which means that if you want to improve a certain skill you have to practice it.

Listening:

It plays a very important part in learning any language. Effective listening ensures understanding and it helps improve accuracy when speaking, among other things. How can you improve your listening skills? By listening actively, i.e. paying attention not only on what is said, but also how it is said. So, listen:

1. To music –old or modern; the type you prefer, but pay attention to the lyrics. (sometimes reading the lyrics may help you understand the song)
2. To movies, TV shows, news, cartoon shows, the radio. Watching with subtitles and then, when you feel more comfortable, without them.

Speaking:

It is often the hardest of the four language skills, but as soon as you can speak a little English there are lots of ways to improve quickly and have tons of fun.

1. Talk and record yourself. This may sound funny, but it will help you realize how you can improve by repeating the recording several times till you feel happy with the results.
2. Talk to your classmates in English.

Reading:

It is a process of the brain and it takes time to develop: your mind has to attach meaning to the words, phrases and expressions represented by symbols, plus get to understand the grammar and structure of the language used in the passage to read. If you develop strong reading skills, it'll be very helpful to your future. You can read:

1. Story books and comics in English. Try to start with easy books: The images will help you understand even if you don't know all the words.
2. Form the habit of reading newspaper. Highlight the hard words and find their meanings from the dictionary. This will help in enhancing the vocabulary.

Writing:

With regular practice, one can get used to writing with a little discipline and a willingness to learn.

1. Write down words or expressions you think useful with their meaning and examples. If you see them in sentences you will remember them better.
2. Diary writing can be an excellent tool to improve writing skills. One can daily jot down thoughts, feelings, expressions and ideas in their diary.

All the above mentioned tips can be reduced to just one: PRACTICE, PRACTICE, PRACTICE!! Whatever learning style you have, whatever your native language is, the key to acquire and master a foreign language is PRACTICE it as much and as often as possible.

TIME MANAGEMENT

In today's busy world, time management skills for students are increasingly important. While you might be yearning for a simpler era when time seemed to move more slowly, the realities of participation in contemporary western society requires young people to have skills in efficiency and production. Micro-managing approach to a student's daily life is important for them to set goals and learn to be effective time managers. In this article, we'll discuss why time management matters, and list several techniques to help students learn to prioritise and manage time effectively.

What is time management?

Like our energy and money, time is a finite resource and as such, it needs to be effectively managed. Time management is about planning and controlling the amount of time you spend on specific tasks.

Some of the important skills students need to manage time effectively include:

1. Goal-setting
2. Prioritisation
3. Organisation
4. Managing stress

Why are time management skills important?

Effective time management allows students to complete more in less time, because their attention is focused and they're not wasting time on distractions efficient use of time also reduces stress. It can also provide a sense of achievement from fulfilling goals. Furthermore, by using time efficiently, students can complete their work on time, stay engaged with their learning, and have more free time for pursuing activities such as sports, hobbies, youth groups and spending time with friends and family.

Good time management allows students to make the most of their abilities and enjoy the satisfaction of accomplishment. It is also one of the most desirable skills for employment.

Tips on how to improve time management

- Start with an agenda – either alone or with help, a child should record the dates of all upcoming assignments and exams on a paper or notes in their school diary or an online calendar. Schedule important activities and free time, too. You can even set deadlines a few days before the actual due dates to allow a margin for emergencies.
- Create a master schedule – From this agenda, block off chunks of time for study or assignment work. This will help student to prioritise their projects and stay on target with due dates. You could start by estimating how long each project will take, then calculate how much time to allow daily or weekly. Try to schedule in some study every week day, even if it's only brief. Colour-coding different subjects can make reading the schedule easier.
- Start assignments early –Leaving assignments until the last minute is stressful. Instead, as a parent, encourage your child to start working on them well before they are due.
- Make project plans – When study or assignments seem overwhelming, procrastination often results. Parents can help their child to break their study plan or project into smaller, more manageable chunks. You can give each segment its own due date to help them feel good for meeting small goals.
- Avoid multi-tasking – Divided attention is an inefficient way to learn. Focus on one task at a time for maximum productivity.
- Reduce distractions – During time scheduled for schoolwork, as a parent have your child put away unnecessary devices such as mobile phones, and switch off social media notifications. Distractions can also come from internal feelings such as hunger or tiredness, so ensure they're getting adequate sleep and have snacks and water on hand.
- Take regular breaks – Working on something for too long can lead to lost focus. Short breaks every half hour or so can help them to recharge. Consider having a change of scene, such as a short walk or a drink in the backyard. Just make sure they don't get side-tracked and don't return to study!
- Be an early bird – encourage your child to start their homework as early as possible after school.
- Keep a clock placed visibly before you – to stay aware of current time.
- Reward achievement – when the child has accomplished important goals, don't forget to celebrate. This doesn't have to be something big or expensive. Preferably, it should be something healthy.
- Learn to say no. With endless ways you can spend your time, people recommend saying no to activities that don't fit with your priorities.

THE WAY OF LIVING LIFE [KEEPING A POSITIVE ATTITUDE]

We all have a tendency to live our life in our own way and doing the same things but in our own way and also facing it and solving it in our own way. But some time we don't know how to solve or face it . And it's fine because some time we don't have the most important thing to solve or face any situation , which is the positive attitude and the hope . And this results to the failure that's because we don't have the positive attitude and the hope and strength required to face it and we leave the situation or the challenge as it is and take a step back . NO , it is wrong as our parents and teachers have taught us that if we don't try to face it we will never be able to solve it . AS when we give our best to solve or face it we will then only reach our success . So now keep a positive attitude , the best hope and the your full strength and you will be able to face any problem which is waiting for us in the outside world .Last but not the least - " TRYING , KEEPING HOPE AND HAVING A POSITIVE ATTITUDE WILL ONLY HELP US TO REACH OUR GOAL AND TOUCH THE SUCCESS ..THANK YOU VERY MUCH .

इंसान की नियति

पाखंड की तलवार में कतने कटे लोग
धर्म और जात में अब तक बंटे हैं लोग।
आज फर इंसानियत शर्मसार हो गई ,
देखते ही देखते फर एक जान लाश हो गई ।

हम आधुनिक मानव है या फर मशीन कोई
सोचो हम मानव भी है या फर चीज़ कोई ।
इंसानियत की रोशनी गुम हो गई कहां,
साए तो है आदमी के मगर आदमी कहां

पहले ज़मीन बंटी फर घर भी बंट गया ,
इंसान अपने आप में ही कतना समट गया ।
हे भगवान ऐसा कोई आईना बना दे,
जो इंसान को उसका चेहरा नहीं करदार दिखा दे ।

झूठी बातों को सच करने में डटे हैं लोग,जाने क्यों गैर समझ
कर हटे है लोग।मर रही है इंसानियत, दुनिया लगी है सोने
में,गुजर रही जिंदगी, यूं ही रोने-धोने में।तू साफ कर पहले अपना
मन,हिंदू बन या मुस्लिम बन , सबसे पहले इंसान बन।

ममतामयी माँ

जिस तरह अन्न और जल के समान कोई दान नहीं है, गायत्री मंत्र से बढ़ कर कोई मंत्र नहीं है, उसी तरह माँ से बढ़कर दुनिया में कोई दूसरा नहीं है। माँ की गोद में ही हम आँखे खोलते हैं, वही हमें बोलना, चलना, खाना-पीना, अच्छे गुण सिखाती है। हमें ज्ञान देने वाली पहली गुरु हमारी माँ ही होती है। हम जब दुख और पीड़ा में होते हैं तो भगवान के अलावा माँ का नाम ही हमारे मुँह से निकलता है।

माँ का दूसरा नाम त्याग है। माँ बच्चे को सुखी जगह पर सुलाकर स्वयं गीले बिस्तर पर सोती है। अपने सुख और आराम को कौन त्याग सकता है? - माँ केवल माँ एक शक्ति है, एक देवी है जो हमारे अस्तित्व को जीवन में बनाये रखती है और हमें उच्च स्तर पर पहुंचती है।

वास्तव में जनमदायिनी माँ और पूजा घर की देवी माँ में कोई अंतर नहीं है। जब तक हम अपनी माँ में देवी के स्वरूप का दर्शन न कर पाए तब तक हम उससे प्यार कैसे कर पाएंगे? उसकी पूजा और सेवा कैसे करेंगे? दरसल, माँ काली के रूप में, दुर्गा के रूप में और और लक्ष्मी के रूप में और लक्ष्मी के रूप में विनाश और सृजन दोनों करती है। माँ करुणा की साक्षात् मूर्ति है।

माँ के संबंध में विभिन्न ग्रंथों में एक ही वाक्य में कहा गया है- "न मातुः परम् दैवतम्" अर्थात् माता से बड़ा कोई देवता नहीं है।

Because she is a MOTHER.

Holy Hearts Educational Academy

Avisha Panjwani	Dimple Sadrani	Ganya Solanki	Harshita Sethia	Himanshu Agarwal	Ishan Chiripal

HOLY Hearts Educational Academy has again maintained its academic excellence with brilliant performance in the CBSE Class XII Board examination, announced on Friday. The academy recorded 100 per cent results with Dimple Sadrani being the school topper securing 95.6 per cent.

Chairman of the Holy Hearts Educational Academy Surendra Pratap Singh said that the school has supported the students with best academics in the tough pandemic times. Apart from the management, the teachers and students have work hard under tensed conditions to come out successful with good performance in the board exam, he added. The students who secured 93.0 and above per cent marks are Dimple Sadrani (95.6 per cent), Avisha Panjwani and Urva Bhatnagar (95.2 per cent) each, Keshav Lohani (95.0 per cent), Ganya Solanki, Mahek Surana and Prapti Mondal (94.8 per cent each), Mitali Jain (94.4 per cent), Himanshu Agarwal (94.2 per cent), Harshita Sethia (94.0 per cent), Sahil Khemani and Soumya Chopda (93.8 per cent), Ishra Khan, Kashish Rajpurohit and Ishan Chiripal (93.6 per cent), Rohan Jain, Rimsha Aman and Shruti Tripathi (93.4 per cent) and Mohammad Dastagee and Zainab Zia (93.2 per cent). The school management and teachers congratulated the students and wished them bright future ahead.
