संस्थापक की कलम से.....

बच्चों, लक्ष्य की प्राप्ति के लिए लगन, मेहनत और कार्य के प्रति समर्पित भावना होना आवश्यक है। सर्वश्रेष्ठ उदाहरण हमारे सामने हैं जिस प्रकार से एकलव्य गुरु द्रोणाचार्य की मूर्ति बनाकर धनुर्विद्या का नियमित अभ्यास करके उसमें निपुण हो गए थे, ठीक उसी प्रकार से विद्यार्थियों को भी रूचि के अनुसार विषय का चयन करके लक्ष्य की प्राप्ति हेतु निरंतर प्रयास करते रहना चाहिए। प्रतिज्ञा ई मैग्जीनके माध्यम से अभिभावकों के लिए यही संदेश है कि तीसरी लहर की पूरी दुनिया में चर्चा हो रही है उसके लिए स्वयं तैयार रहें और आस-पड़ोस को भी जागृत करें। समय एवं परिस्थिति के अनुकूल हम सभी को अपने आपको ढालना आवश्यक है। अंत में मैं यही कहूंगा कि जब भी आपको अवसर मिले अपनी आंखें बंद करके अपने माता - पिता एवं मातृभूमि के लिए चिंतन अवश्य करिए। बच्चों, हमारी शुभकामनाएं हैं कि आप खूब आगे बढ़े अपने माता - पिता, शाला व राष्ट्र का नाम गौरवान्वित करें। सुरेंद्र प्रताप सिंह

From Academic Director's Desk

Dear Parents/ Students,
Warm greetings to all of you. We are ready with our another News Letter "Pratigya".

I congratulate all our students and teachers of class X and class XII for wonderful results.

For Academic Excellence, I have few suggestions....

1. Please make sure that your child is regularly attending classes.
2. Students should fix the goal to achieve the high percentage and then required to plan the day and manage their time.
3. They should develop reading habit. They should revise the chapter which is taught in a day and they should see that without revising they don't sleep.
4. Examination preparation should be started right from the beginning, not when the exam is near.
5. All tests and examinations are important. They should appear in all tests and examinations.

"The beautiful think about learning is that no one can take it away from you. "

All the Best.

Mrs. Kalpana Tiwari

From Principal's Desk

School is the place where all children grow not just in size, not even in knowledge but in curiosity, courage, confidence, resourcefulness, patience, competence and understanding. I once again welcome you to read and enjoy Pratigya to know about different activities, competitions, winners and student's articles. I hope all this will give you more information about your ward and the school. I extend my heartiest thanks to all the parents for their unconditional support in the development of their ward.

Also I congratulate all my dear students for their wholehearted participation in many activities with great zeal and zest. The students by now have got themselves ready to appear in the Mid Term/Period Test-2 Examination.

I wish parents and students all the best for the same.

WARM REGARDS
MRS. NEEPA CHAUHAN

From The Head Mistress' Desk

Dear Students,
Hello!

It was the first time ever that all the events were celebrated without you. It has really saddened us to no end. Today I want to express how I feel without you all. I am here only because of you and my passion.

My dear children always remember that you should have a passion for what you do and do what you are passionate about. Dream big and have courage to follow it. If you want, you can become a teacher, photographer, director, film maker, choreographer, writer, sportsperson etc. or anything you love to be. Be emotionally attached to your dream and pamper it. Put your hundred percent efforts. I don't say that you won't have any difficulty in achieving it. But don't lose your hope and learn from your failures.

Dear students focus towards your goal and the day will come when you find yourself on the top of the world.

God Bless You!
Shalini Agrawal

From Vice Principal's Desk

CONFIDENCE

Confidence means feeling sure of yourself and your abilities. It is therefore said that: "The most beautiful thing that you can wear is Confidence"

But being confident surely does not mean being arrogant or about feeling superior to others, but it is a feeling of being secure and knowing that you can rely on your skills and strengths to handle whatever comes up.

Some tips to boost your confidence:

- Learn to like, respect and love yourself
- Be social
- Go outside of your comfort zone and try something new.
- Do things you are good at
- Remain goal orientated and be proud of your achievement.
- Accept, you and others are not perfect, but accept responsibilities.
- Don't put things off
- Have gratitude

Mrs. Radhika Atre

Food, Health and Nutrition through Agriculture

Food quality and quantity is a major determinant of health and agriculture forms the basis for the production of crops and food. Availability of food not only affects the survival and well-being, but it is closely related to productivity of the person. We say that food safety is a major issue in developing countries but assuring intake of nutritious healthy food is a concern all over the world, including developed countries. There are several disorders associated to inadequate diet and poor eating pattern like obesity, underweight, protein energy malnutrition, anemia, infectious disorders like diarrhea. Children, up to age of 14, are at high risk of malnourishment while 40% of food borne diseases are observed among children under 5 years due to poor hygiene and sanitation, leading to life-threatening infections (WHO, 2019). It is surprising that out of these approximately 50% of malnutrition is not caused by lack of food grains but it is due to poor nutrition quality of the food, in terms of vitamins and minerals. Malnourishment is only one face of this problem. Another aspect of healthy food and nutrition is due to eating habits and pattern. Recent report in *Obesity Reviews* analyzed the food pattern of 12 countries – Australia, Canada, Chile, China, India, Hong Kong, Mexico, New Zealand, Slovenia, South Africa, the United Kingdom, and the United States and showed that conditions are worrisome for India. The shift in our consumption patterns from traditional diets based upon fruits, vegetables, unprocessed cereals and legumes to diets that are increasingly dominated by highly processed packaged food and beverage products is bringing India to a growing obesity epidemic. [India is home to the third-largest number of obese people in the world.](#) By 2025, we will be home to an estimated 65 million obese people, including seventeen million obese children and not mention fast foods and carbonated drinks have nothing but energy density (calories), saturated fat, total sugars, and sodium. Deficiencies of vitamins (particularly A, D), minerals like calcium, iron, zinc and protein are affecting more than 150 million people in South East Asia. This is called Hidden hunger which can be overcome by diversified food crops that include cereals, pulses, vegetables, fruits etc.

In such paradox where we have either too much of something or too less of everything a quote comes in my mind *"Agriculture is our wisest pursuit, because it will in the end contribute most to real wealth, good morals, and happiness."* Thomas Jefferson. Agriculture is the only sector that connects human life with soil, water and plants. Recent approaches like crop Biofortification for breeding food crops rich in bio-available nutrients are the answers to hidden hunger. It can reduce the burden of malnourishment disorders in the developing world in a cost-effective manner and can also provide balanced diet to everyone. The success of bio-fortification is visible in form of advanced crop varieties like vitamin A rich rice (Golden rice), sweet potato (Golden sweet potato), Zinc rich rice (CGZR 1 and ZincoRice) and protein rich rice (Protezin) will help in bringing quality food in reach of the common people. Biofortification will bring real meaning to words of *Thomas Edison* that *"Doctor of the future will give no medicine, but will interest his patient in the care of the human frame, in diet and the cause and prevention of disease."* Agriculture focused on cultivation of diverse crops or development of crops with better nutritious quality is the need of the day. So the farmers and agro-entrepreneurs will be the health experts who will guide people to grow nutritious healthy food and also to use them daily.

From The Teacher's Desk

बच्चों के विकास में मां की भूमिका माँ शब्द की कोई परिभाषा नहीं होती, यह शब्द अपने आप में ही परिपूर्ण है। नारी के अनेक रूपों में माँ का रूप पूजनीय है। माँ अपने बच्चों की पहली गुरु होती है। माँ का ही रिश्ता ऐसा है, जो जीवन पर्यन्त सफ देना जानती है, लेना नहीं।

परन्तु आज के इस भाग दौड़ के समय नारी यह भूलती जा रही है। क उसका प्रथम कर्तव्य क्या है ? आज की नारी

अपने कैरियर को बनाने में यह भूलती जा रही है। वर्तमान समय में माताओं को देखकर दुःख होता है, क वे अपने जिगर के टुकड़े को क्रेश में छोड़ कर आ फसे चली जाती है, क्या क्रेश बच्चों को माँ का प्यार दे सकता है ? पुराने जमाने में माँ अपने चार, पाँच बच्चों को संभाल लेती थी, पर आज एक बच्चे को संभालना मुश्किल हो रहा है। यह बात अलग है, क सभी क्षेत्रों में महिलाओं का विकास हुआ है, आज वह हर क्षेत्र में पुरुष के साथ कंधे से कंधा मलाकर चल रही है, पर जिस वक्त बच्चे को माँ की आवश्यकता होती है, उस वक्त

माँ के पास समय नहीं होता है, वह घर और बाहर काम के बोझ तले इतनी दब जाती है, क उसे बच्चों के पास दो मिनट बैठने का समय नहीं मिलता, अगर थोड़ा समय मिलता भी तो वह बच्चों की बात को नजरंदाज कर देती है। क्योंकि उसके पास वक्त की कमी होती है। जिस प्रकार पौधे को यदि सही पोषण न मिले तो वह मुरझा जाता है। बच्चों के संबंध में भी यह बात लागू होती है। आज हम सभी महिलाओं को यह सोचना होगा क क्या हम अपने बच्चों को वो सब कुछ दे पा रहे हैं, जिनके वो हकदार हैं। पैसा ही सब कुछ नहीं है। कबीरदास जी ने ठीक ही कहा है ---
पुत कपूत तो क्यों धन संचय ? पूत सपूत तो क्यों धन संचय ?

परिवर्तन ही प्रकृति का नियम है और हमें नये युग के साथ चलना होगा अन्यथा हम दुनिया में पीछे हों जायेंगे, पर हमें अपने संस्कारों को नहीं छोड़ना चाहिए। संस्कार यदि बच्चे को प्राप्त

होता है तो वह माँ से प्राप्त होता है, और वह जीवन भर काम आता

है। अंत में मैं यही कहना चाहूंगी क बच्चे मट्टी के घड़े के समान होते

हैं, हम जैसा चाहे वैसा आकार दे सकते हैं, बड़े होने पर वह वैसा ही बनता है।

---- श्रीमती मीता पाठक (शिक्षिका)

From The Teacher's Desk

Fair Determination Determines our Destiny...

What is your dream life? What kind of destiny you want to create for yourself? At one point, we have a clue what it could be. However, it keeps changing with the time. We tend to have another dream or goals just because the earlier one seems impossible to achieve.

Winners are ordinary people with extraordinary determination. We fail because we lack determination. If we check, it is not only that we fail at big things. We fail daily at small things for the same reason: determination.

Here are some of the common statements of our daily life:

1. I will wake up early from tomorrow onwards.
2. I will start morning walk or meditation next week.
3. I will start study for my exam or prepare for a better job from tomorrow.
4. I will quit smoking from today.

You must have made similar kind of promises with yourselves. What happen with them often? I know we start (sometimes). However, it last only for few days and you came to know that it is not your cup of tea. These little things can tell that how determined you are.

Be determined with your decisions:

Determination is about the strength of your mind to get going even when a situation does not favor you. The bigger your dream or goals is, the more you get into trouble. Every problem is a form of challenge and opportunity to grow.

Keep Going: Think twice before pursuing any goal. However, once you decide, give it an action. Do not stop thereafter. Small action is enough to keep you on track and motivate you to proceed.

Challenges will come to make you stronger. Keep learning and keep going and you will get it one day.

As Michael Jordon said, "Obstacles don't have to stop you. If you run into a wall, don't turn around and give up. Figure out how to climb it, go through it, or work around it."

"Determination is the wake-up call to the human will." – ...

Determination inspires us to dream bigger and achieve more for ourselves. When we adopt hard-working, successful people as a role models, we fuel our own determination and stay inspired to create new goals. "Victory is always possible for the person who refuses to stop fighting."

**Remember: True success can only be achieved
when you have True Determination.**

(PGT COMMERCE)**

BY INVITATION ALMUS OF THIS MONTH

"A tree with strong roots can survive and grow through any storm." And so is the role of a school in a student's life. It helps to build the foundation years which ultimately shapes their future and gives them the wisdom to deal with various challenges throughout their journey.

I, Jaya Nagdeo was fortunate enough to be a part of the Holy Hearts Family. Here, I received the right studying atmosphere and excellent teachers' guidance which later enabled me to achieve great success in my life. Not only academics but also the various extra-curricular activities conducted at school contributed to my overall development.

Currently I am practising as a Company Secretary. The journey of becoming a CS was full of ups and downs. Got both good and bad results on the way. Achieved All India Fifth Rank in CS Foundation, ranked 9th in the merit list of University but also faced some failures. What made all the difference was a will to never give up despite the odds.

I strongly agree with the words of Tommy Lasorda - "The difference between the impossible and the possible lies in a person's determination." If a person is determined and clear with his goals, no failure can stop him from achieving the desired result.

Last but not the least, "गुरु बिना ज्ञान नहीं और ज्ञान बिना जीवन बेकार है।" I am very grateful to my school, Holy Hearts and all the teachers for playing the role of that strong pillar in my life, which prepared me to accomplish all the goals by inspiring me to gain more knowledge, by making me understand the value of responsibility and discipline, and by always boosting up my determination.

- CS Jaya Nagdeo

BY INVITATION अभिभावक की कलम से

एक रोज़ ज़रूर तू निखरेगा
सपनों की गहराई को समझो अपने अंदर की अच्छाई को समझो ॥
क्या खोजते हो दुनिया
मेजब सब कुछ तेरे अंदर है ॥
क्या देखते हो औरों में
जब तेरा मन ही दर्पण है ॥
अपनी से थोड़ा तुम हँस लो
और जीवन तुम खुलकर जी लो ॥
आलस तुम्हारा दुश्मन है तो
संघर्ष को अपना दोस्त बना लो ॥
जीवन का यह रहस्य समझ लो
और खुशियों से तुम नाता जोड़ो ॥
दुनिया बस एक दौड़ नहीं
इस दुनिया से प्यार तुम कर लो ॥
रुक कर खुद से बात तुम कर लो
अपने अंतर मन को साफ़ तुम कर लो ॥
एक पल में नहीं बनता सब कुछ
पल पल मेहनत करके सबने मंज़िल पायी है ॥
कल क्या होगा पर ध्यान ना दिया बस काम किया,
राह में मुश्किलें उनके भी आयी है ॥
तेरी कोशिश देख हवाओ का रुख
एक रोज़ तो बदलेगा माना आज तू बिखरा है पर एक रोज़ ज़रूर तू निखरेगा ॥
एक रोज़ ज़रूर तू निखरेगा ॥

(अभिभावक- अनन्या चोपड़ा IX-A)

Covid 19 Pandemic

A Pathway to Eradicate Morality Collection

Yes, very right. Morality pollution has been most terrible aspect for the Indian society before pandemic . Poaching, Child Molestation, , etc were the major issue that our society facing every now and then. Suddenly, the Emergence of Covid 19 Pandemic forced up to Stay at home and maintain distancing. All of a sudden, we were camouflaged under one roof of our homes without outdoor activities But, we human beings are very compatible with every situation. Lockdown has made us realize our mistakes regarding several areas. First, we understood the importance of oxygen in our lives. So most people diverted their time towards gardening and plantation. Secondly, The cries of stray animals with hunger and thirst made us more humble towards them. Thirdly, family bond became more stronger as the family members enjoyed various indoor games during the lockdown period. Fourthly, Children realised the hard work of their parents and so they enjoyed helping them in household work. Ramayan being telecast was an example of our rich culture and the youth of our country, somehow, they realized the importance of moral values like compatibility, resilience, tolerance humbleness in our lives. Surely, Pandemic has given social distancing but definitely it has improved moral values that can uplift our society in one way of the other.

Lines on my dream

My dream is the India where the equality is seen on the ground and not just on the paper.

My dream will be achieved when every Indian is ready to sacrifice for the greater good of our country.

My dream is that there must be no discrimination among people and must be nation progress in every field.

My dream is no one should sleep hungry in my country and women should have equal status as men.

My dream is to be a safe place for animals and plants.

My dream is my school will be re-open fast I wish would meet my friends and teachers with lots of fun there with them and for better education and life.

What Can I Say to Myself?

Instead of.....

- *I'm not good at this
- *I'm awesome at this
- *I give up
- *This is too hard
- *I can't make this any better.
- *I just can't do Math
- *I made a mistake
- *She's so smart. I will never be that smart.
- *It's good enough.
- *Plan A didn't work

Try thinking....

- * What am I missing?
- * I'm on the right track
- * I'll use some of the strategies we've learned
- * This may take some time and effort
- * I can always improve, so I'll keep trying
- * I'm going to train my brain in Math
- * Mistake help me to learn better
- * I'm going to figure out how she does It so I can try it!
- * Is it really my best work.
- * Good thing the alphabet has 25 more letters

फोन मेरी जान है

फोन मेरी जान है, इस बच्चेकी जुबानी |
फोन मेरी जान है ये मैंने मान लिया,
सुबह-शाम समय लबताये, मैंने ये जान लिया |
लकया दरुखुद को सबसेबहुत जल्दी,
ये सब को समझा लदया |
अभी तो चार कदम चना सीखा था,
मम्मी-पापा ने फोन देकर बैठा लदया |
लकया जब भी मस्ती-मजाक, खेि-कूद,
फोन पकड़ाकर सुिा लदया |
जब भी बात आई मेरी,
मुझेही बुरा बना लदया |
चना था साथ में,
माँगा था प्यार मैंने,
लदया मम्मी-पापा नेही फोन औरहर बार खुश कर लदया |
फोन मेरी जान है, इससे आज जान पर ही बन आई है,
इसीलए मम्मी-पापा फोन नहीं,
प्यार ही मेरी भरपाई है |
नहीं चालहए फोन मुझे, बस आपका साथ है माँगा,
फोन को नहीं आप दोनों को अपनी जान है माना |

DISCIPLINE

Discipline is the most important part of life. In the other way we can say that it helps to improve our life and sharp our mind . It is the most important part in the student's life . We can also say that it's our first step towards success . It is the way to achieve success . Self discipline is good from force discipline . If a person follows rules and regulation from his childhood so it will help him or her in future. It helps people to build an attitude that becomes the key to become successful . They can also set example in society . There should be balance between discipline and freedom . It is important for every work . It helps to be stress free and it prevents us to fall in depression. It helps to control ourselves . Person without discipline always get failure so always remember -*Discipline is the bridge to goals and accomplishment .

CLASS : 6 B

OUR EARTH IS DYING BECAUSE OF OUR DEEDS

Earth - Our home planet, what we have done and are still doing to it? You, me, everybody; we all are the culprits of this serious harm to mother nature. Our deeds have adversely affected the flora and fauna and the natural structure of many landforms – Great Barrier Reef, Amazon Rainforest etc. We have not even spared the highest peaks and deep depths of the sea, not even the space.

Perhaps the most affected country is India, we can see reports, of the 20 most polluted cities in the world 15 are of our country with Gurugram on top, India is the 3rd most polluted country. In 2019 1.67 million people have died of pollution. Our deeds are causing landslides, floods and many more. The area most affected by landslides is Himachal Pradesh and Uttarakhand, a deadly landslide hit Kinnaur, Himachal Pradesh. It killed 10 people, so are we the cause of their death?

The United Nations, governments, NGOs etc have initiated many steps to somehow conserve it but in vain. With each passing day, our Earth is dying. This planet is dwelling and it is the responsibility of each and every human being to repay for what we are accountable to. At least, we as an individual can do our part by planting plants and trees, protecting birds and animals and making efforts to stop exploitation of land, water and soil. "Why spend billions to go to Mars when we can use it to rebuild Earth?". Still we have time to think sensibly and do our best, or else one day we will not have any planet left in the universe to live in.

Vedansh Mishra

CLASS : 7 B

STUDENT'S INPUT

THE CHERNOBYL INCIDENT

Humans don't believe in ghosts, paranormal activity etc. But surely believes the science and the horror of science. One of the things is a nuclear plant's blast.

On 26 April 1986 at 1:23am at Chernobyl Ukraine where this incident occur. But let's first talk about a city Pripyat which had the population of 50,000 and was just beside Chernobyl. The people lived happily there. But on 26 April there life changed. They all saw a beam of light going into the sky and they thought that it would be a normal factory fire. They all were watching the fire from a bridge.

PLANT AT THE TIME OF THE BLAST

BRIDGE OF DEATH

Everyone who was standing there was unknowingly getting affected by the radiation and kinds of cancers were developing inside them. It's recorded that none of the people standing on the bridge survived and so it got the name as 'The Bridge of Death'

In the plant, the safety measures were not taken nicely .The result was that in the reactor heated up to 10,000 Degree Centigrade. The reactor was dipped into ice cold water but the water evaporated within a second and the plant blasted.

The population of both Pripjat and Chernobyl is counted as 0. There is even a place at the factory with a lot of nuclear waste. You can't even stand 45mins there living and it's known as 'The Elephants Foot'.

People still get chills hearing about the incident and recovering the blast will take more than 100's of decades

STUDENT'S INPUT

TALENTED INDIAN'S : TALENTED INDIA

Neeraj Chopra wins the Olympic gold medal for India! Didn't you felt proud? Yes off course you felt. But don't you think something else is also supposed to be felt. United States got 39 gold medals, China won 38, Japan won 27, Great Britain won 22 and here comes India at Last who won only 1 gold medal.

Apart from the realities, there are certain misconceptions about why Indians are not as engaged in sports as the rest of the globe. Despite the fact that Indians participate in football and other athletic activities, they will never be as successful as China or other surrounding countries. I was strolling down the street one day when I noticed a large number of children enjoying themselves while playing cricket. I assumed they would be the medal collectors of the future.

However, I noticed their parents approaching them and shouting at them for not studying. I'm not saying their parents are evil people, but they are the reason why their children aren't interested in sports. Not only them but there are so many other reasons why people who have talent but fail to build India's progress.

We don't appreciate our athletes as much as other countries do. The few persons who compete at the international level and may or may not be awarded receive little assistance from the sports authorities. As a result, children lack role models and are uninterested in sports.

Whoever wins at the international level does so either as a result of their own efforts or because they were able to purchase the necessary training. My goal isn't to criticise Indian athletes or their achievements. Instead, it's meant to imply that we, as supporters, be realistic about their chances in track and field in the Olympics. They aren't going to win any medals.

However, they may take the measures that Indian athletics need in order to create future medalists. They might perhaps break Indian records. Perhaps even ones that have stood for decades will be broken. Through my message I simply needed to rouse and spur the young people of my nation to make a more splendid India.

I hope my article would have inspired you!

SOCIAL MEDIA PROS & CONS

How many followers do you have on instagram ? Did you check whatsapp status? why she does not like my picture on facebook? Well, these are some conversations friends usually have these days. Social media is nothing for them but still everything for them. This generation is growing with good mornings in social media and good night through social media. Social media has created a significant impact on people. There are times when people think that youngsters not accessing social media are usually renegades in their thoughts and opinions . But is it really true ? This could be answered if we identify the pros and cons of it. As a student let us discuss some of it.

PROS.

For students ,social media helps create social communities and groups for learning , developing and collaborating on innovative ideas Students who cannot attend class regularly may able to express their opinions using social media. Even if this cannot entirely swap class participation but it can support to increase students assurance and inspire them to find their voice.

It offers to learn beyond books and assignments, provides plenty of learning & educational opportunities beyond classroom

CONS

It reduces physical interaction among teenagers and make them shy , less interactive when they encounter with world

Being active on social media all times may distract teens and students from focusing on studies

At one side, social media offer a great way for students and teachers to connect, on the other side; they can be a weapon of malevolent behavior. Social media makes it easier for students to abuse or bully their peers or even their teachers.

From this we all can stick to the point that for us, as students social media is only good when we are getting benefit from it or unless wasting times on liking the posts will harm us in future. Thus conclusion to this is social media can be used for short period of time for knowledge and news or unless we are spoiling ourselves for our own future!

A NEW MODE OF EDUCATION THROUGH DIGITAL CLASSES

At this crucial time when we are battling Coronavirus which has resulted in schools shut all across the world, the mode of education has shifted to online learning. This mode of education was hard to adapt for the teachers as well as for the students but it was necessary. We could not just sit back while covid is taking grip of the world. Life goes on and without digital mode of learning we would have wasted these years. Needless to say it comes with several disadvantages, students are becoming careless towards their studies. Lack of discipline is building up and online learning requires a lot of focus, not every household has internet facilities and the lack of communication has resulted in students having no personality development. But what better way to use our resources than to use it for learning? Online mode of education is cheaper and time saving as well as convenient. Even before covid there was already High growth and adoption in education for online learning and the significant demand has resulted in profit for many digital platforms. Education is an important part of people's lives, it is Greatly diverse today because of advancements in teaching and other great inventions that provide easier techniques of teaching. Studies have shown that children extensively use their senses to learn , making learning fun and effective through use of technology is crucial.

HOW TO HANDLE PEER PRESSURE

Before going towards the topic , I would firstly like to clear two things that What is Peer Pressure? and What are its effect?

So in simple we can say that Peer Pressure is the influence from member of a Peer group. A great thing about Peer pressure is that, it has both effect ie Positive and Negative. Positive Peer Pressure pushes you to be the best of yourself vice versa in Negative Peer Pressure you will feel guilty or disappointed with yourself.

Till here we came to know all about peer pressure but the biggest question arise is how to handle negative peer pressure, so in further I am going to tell you few things from which I used to handle Negative

Peer Pressure :-

Pay attention to how you feel.

If something doesn't fell right to you, it probably not. Even if your friends is OK with that, still the situation may not be right for you.

Plan Ahead.

Think about how you will respond in different situation. Plan what you can do and what you can say.

Get support form a trusted adult such as parent and teacher.

A trusted adult will listen you and help you with strategies that might work in the situation.

My Class Teacher , My Mentor Mr. Kamal Kishore Agrawal always used to say " YOUR DETERMINATION WILL DETERMINE YOUR DESTINY"

So don't let the small Peer Pressure distract you from your destiny.
